ABSTRACT

The objectives of this report are to describe (1) the activities that I did during implementing an internship at Ganesa Library for a month from January 19th to February 19th 2016; (2) the problems that I had during doing the activities; (3) and the ways I did to solve those problems.

The main activity that I did during the internship was translating children’s English story books into Indonesian. The secondary activities were joining Ganesa English Speaking (GES), Ganesa muntis Community (GnC), and Storytelling activity. The problems appeared during doing the main activity encompass the problems in; choosing the children’s English story books, translating the difficult terms and idioms, finding onomatopoeia, connecting to the Internet connection, paying attention from the children in storytelling activity, and determining the topic of GES. The ways that I did to solve those problems were; I used both online and off-line dictionaries to translate the difficult terms and idioms, I used translation techniques such as borrowing technique in translating onomatopoeia, I decided to make the story more interesting for example by showing the pictures of the books to get the children’s attention in doing storytelling activity, I decided to use the tethering from my hand phone to connect to the Internet connection, and I asked to my internship supervisor about some topics that have not been used yet for the discussion to determine the topic of GES.
