ABSTRACT

Tri Aditiya, 2011, English Teaching-Learning Activity of SD N 5 Plumbungan, Sragen, English Diploma Program, Faculty of Letters and Fine Arts, Sebelas Maret University.

This final report project is written based on the job training activities in SDN 5 Plumbungan, Sragen. The aim of this final project is to describe the English teaching-learning activities, the problems and their solutions.

The teaching-learning activity consists of warming up, explanations, practice and assessments. The writer finds some problems from the students and the writer as a teacher. The problems from students are less discipline, memorizing English words, pronouncing and writing English words. The problems from the teacher are lack of time and lack of additional materials.

The suggestion based on the discussion is to SD N 5 Plumbungan, Sragen and English Diploma Program. To the elementary school, they have to provide additional facilities. To English Diploma, they have to give two semesters to prepare job training activity for the students.
